

Ports, Services and Logistics

## ENVIRONMENTAL POLICY

Busserk is cooperation that carries out port operations of maritime transportation according to the local and international regulations and terms as well as providing logistics and warehousing services.

Our company believes that minimizing the effects services rendered on the environment and preventing environmental pollution, therefore continuous assessment and monitoring, and raising awareness of our personnel is a must. Within this scope, our company aims to set objectives that will improve our company's environmental management system, to review these goals in meetings and to provide a healthier, safe and clean working environment for its personnel.

For this reason;

- All services carried out will comply to the related laws, regulations, codes and ISO 14001 standards, and all personnel and subcontractors will abide by them,
- The awareness of the personnel will be raised by regular trainings regarding the environment,
- All personnel will adapt the environmental policy, and will acknowledge and practice as such,
- Air, soil and water pollution, leakage and spills, and noise will be reduced as much as possible and be prevented,
- Necessary human resources, technology and financial resources will be provided to minimize the effects on environment and to use the natural resources efficiently,
- Preventing the environment and human health will be prioritized.

All our personnel will take the necessary precautions and collaborate in order to achieve these objectives, and will create a culture open for continuous improvement.

Each manager is responsible to take the necessary actions and execute them regarding own operations.

Emrah GEZGİN  
General Manager

A handwritten signature in blue ink, appearing to be "Emrah GEZGİN", written over the printed name.
